

Head Boy Application Form

Please tell us why you would like to be a Student Leader (Head Boy or Head Girl)

This position will give me the opportunity to bridge the gap of communication between students and administration, in order to make sure students demands are heard but most importantly executed.

My priority is to take action. To act in the best interest of all of us, all of the students who desperately desire to be fully understood.

Through consistent meetings and efficient co-operation with the student council we can ensure transparency so that issues are resolved while keeping students updated and involved in the important matters that concern them.

In addition, I believe that this role allows me to exercise my best traits and qualities with main scope to fulfil our collective goals, ensuring the development of the school to meet our modern demands but also the development of students to overcome modern challenges.

Without a doubt this position comes with great responsibility but I can assure everyone that I'm ready to take it on with a clear vision and utmost determination.

In the end, student demands will become reality.

What personal qualities do you have that would make you suitable for the post?

I am a versatile individual able to adapt to changing environments and communicate with new people to share ideas and resolve our common problems by proposing logical solutions which will be put into action.

Ever since I was a little boy I have been playing basketball and this year I am the captain of my team. This is not just a title but rather an opportunity to motivate teammates and instil in their mind set the lion mentality. To never give up and to always fight for the things we desire. Through basketball, I learned how to unite a group of people in order to work together and strive to achieve the best result.

It is easy to characterize myself through writing, however the fact is that actions speak louder than words. It is our actions that determine our futures and I am confident that our future in this school with me elected will be a bright one. With that said I guarantee you that after listening to all your complaints and suggestions it will be my priority to take the initiative to improve our school lives. While I can never promise you that it will be perfect, I can assure you that I will work hard for it to improve.
